

JEWELRY LOVE

Special to the Daily

Beverly Brndiar, right, checks out her new Lebid Design original earrings with the artist herself, Linda Lebid. In honor of Valentine's Day, local jewelry designer Lebid recently visited the Shaw Cancer Center to design jewelry for women undergoing cancer treatment. "While the women created their greeting cards, I designed custom earrings for each woman who attended," said Lebid. "I chose specific gems and pearls that would highlight their eye color and hair while adding warmth to their skin tone." For more information on the artist, visit www.LebidDesigns.com.
